I'll have John spell it out name, title, etc. and have that ready.

Please use this version to capture any additional comments and get them back as soon as possible. I am concerned that Rick only has 45 days before the quarantine period is set to start for union matters.

Subject: RE: Implementation of President Biden's Executive Orders

Thank you Amy. We are planning for a survey start date of April 1 (arrive on the ship March 30), with quarantine to begin March 17.

I added the mask language you recommended to section E. I also added details on the mask type from the Executive Order:

"All crewmembers must wear a mask that covers the nose and mouth, and is in accordance with any current CDC and OSHA guidance. CDC recommends the following: Non-medical disposable masks, masks that fit properly (snugly around the nose and chin with no large gaps around the sides of the face), masks made with breathable fabric (such as cotton), masks made with tightly woven fabric (i.e., fabrics that do not let light pass through when held up to a light source), masks with two or three layers, and masks with inner filter pockets. Not permitted to be worn are novelty/non-protective masks, masks with ventilation valves, or face shields as a substitute for masks."

Thank you,
Beth

Ex. 5 Deliberative Process (DP)

Small good news--next week OMS will be meeting with someone from CDC and will run our scenario past them (including testing, 14 day quarantine, testing, followed by 1 month on the ship with no outside contacts) and depending on how the conversation goes we may be able to seek additional flexibility with mask wearing on the Lake Guardian.

I've looped in Rick as once we get the plan sorted and finalized, we will need to reach out to our labor counterparts. Ideally we'd want to do that soon, as we are getting close to April. Just to make sure I have the dates clear—what day in April are we shooting for?

Thanks,

Amy
